Gather.
Share.
Produce.

Great things are about to happen, so don't
let anything stand in the way. Infuse life
into your culture and energy into meetings.
Workplace innovation starts with comfort.

Model: OM5-G PolyFlex Back: Arctic White Arms: MR5

Model (Guest Chairs): OM5-AS
PolyFlex Shell: Modern Black Finish/Frame: Chrome

Does it really matter which side of the desk you're on? Sit back, get comfortable, and take charge. Aim for brilliance because you're not good, until you're great.

Introduce.
Shift.
Collaborate.

Spread tradition *and* welcome new ideas.
The best environments unlock synergy and
inspire dialogue. The best seating keeps you
active and engaged.

Model: OM5-AT Arms: Cantilever Arms PolyFlex Shell Color: Arctic White
Finish: Black Finish (cylinder & base) Seat: DesignTex-Appleseed-2682-501

Let's do
more.

Lifestyle meets work style.
Foster spontaneous production by
recognizing that brilliant ideas aren't
limited to any particular time, or space.

Model: OM5-AG PolyFlex Shell Color: Mandarin Orange Finish: Silver Powdercoated

Body Activated Motion

Also known as BAM! OM5's patented recline action has the backrest and seat working in unison so that the backrest is a lever for pushing your body's weight "uphill", removing the need for manual tension adjustment.

Variable Back Resistance

Work at your desk, and get great, firm lower back support. Lean fully into the backrest, and as your shoulder makes contact with the backrest, instantly recline – and pause – as you wish!

On Board Ganging Device

Easy to use, hard to lose. Innovative OM5 Active gangers are built into every Active Guest, Stacker and Cafe model. They are good for maintaining spacing between chairs with and without arms.

Subtlety Matters

And when it comes to our articulating top, OM5 Active has a little extra motion that is the difference between fidget and productive!

OM5 Specifications

All OM5 Series come with Body Activated Motion Mechanism.
