

## **FOR IMMEDIATE RELEASE**

[REVISED]

### **OM5 SERIES: WINNER, ATTENDEES' CHOICE AWARD**

*New Chair by Office Master records a win @ National Ergonomics Conference and Exposition (NECE)*

***Las Vegas, Nevada – December 3, 2010.*** In its West Coast pre-launch debut, the **OM5 Series** by Office Master, Inc. took home one of the top prizes at the National Ergonomics Conference and Exposition: the ErgoExpo Attendees' Choice Award.

In capturing the Attendees' Choice Award the OM5 Series had to be amongst the top 4 vote-getters as decided by well over 1,000 of the leading ergonomic thought-leaders and evaluators in the country, as well as by many influential decision makers such as end-user facility, environmental health & safety, and purchasing personnel.

The other three co-winners this year were Contour Design, Herman Miller, and Workrite. The OM5 Series was the only winner in seating and in so being had to beat out competition most notably from the Lifeform "Brezza", BodyBilt "Sola", Neutral Posture "Right" and the Haworth "Very".

Past major recipients of this prestigious award include Herman Miller, Steelcase, Neutral Posture and Humanscale and many others.

This special award is a strong recognition of the attention to ergonomics & comfort that have always been hallmarks of Office Master seating and that are both embodied in the OM5 Series. For more on this award: <http://ergoexpo.com/index.php?q=node/34>
